2.1 Analysis methods	5
3	7
4	9
5 Contribution table	11

Report

Final report for eye tracking course.

Chapter 1

- Background (introduction to the topic, related literature)
- Motivation
- Research question / hypotheses / dependent measures

Chapter 2

Experimental Methods

- Participants
- Materials / stimuli
- Study design
- Experiment (implementation)

2.1 Analysis methods

- Preprocessing
- Quality control (include plots where sensible)
- Analysis pipeline

Chapter 3

Chapter 4

- 1-paragraph summary
- How do findings relate to literature?
- Limitations
- Challenges during the project
- Outlook / improvements / lessons learned

Chapter 5

Contribution table

Task	Junichi	Nikhil	Sanaz	Shehab
Background Literature	-	-	—	—
Experiment Design	-	-	—	—
Stimulus Design	—	—	-	-
Piloting	—	—	—	-
Data-Recording	—	-	-	—
Non-Final-Talk presenting (who talks)	—	-	—	-
Non-Final-Talk presenting (who prepares)	—	-	—	-
Final-Talk presenting (who talks)	—	—	—	-
Final-Talk presenting (who prepares)	—	-	-	-
Data Analysis Scripts	—	-	—	-
Report Writing	—	—	-	-
Report Lectorate	—	-	-	-
